LIPS PLUMP
Lips plumping
Booster effect
Pepha®-Tight, Syn®Ake, Allantoin, Hyaluronic acid, Pullulan, Tocopherol

Format 15 ml
Cod. 1030020092

Plumping and volumizing for lips, it fills, tones and redefines contours. Prevents and reduces local small wrinkles. Hydrates and protects the lips from external aggressions. Serum that is non-greasy and non-dirty, rich in natural active ingredients that improve the shape, texture and quality of the lips from the first applications. The product can also be applied around the eyes for wrinkles and dark circles treatment.

PEPHA®-TIGHT

Active dermo-cosmetic principle of biotechnological origin derived from the extract of Alga Nannochloropsis Oculata. In contact with skin it acts quickly giving a facelift-straightening effect immediately perceptible. It protects the cells of the dermis from the aggressions of free radicals which determine its deterioration, causing aging and the loss of elasticity. It stimulates fibroblasts to produce collagen, thus strengthening the connective tissue.

SYN®AKE

Dermo-cosmetic peptide of technological origin derived from viper serum. It reduces the contractions of the muscles, responsible for face expression, smoothing and preventing expression lines and giving the lips a more compact and defined contour.

ALLANTOIN

Fundamental molecule for dermis health. Rich in antioxidant, soothing, moisturizing and repairing substances, it protects the skin from the harmful aggressions of free radicals, preventing their normal skin aging. It deeply nourishes and stimulates its physiological cellular self-regeneration, keeping it young over time.

HYALURONIC ACID

It is one of the main components of human connective tissues. Thanks to its ability to recall and bind to itself a high number of water molecules, it guarantees deep hydration, resistance, structure and firmness of the skin.

PULLULAN

Improves tissue tone, promoting collagen synthesis. It reduces the thickness and depth of wrinkles and skin furrows. It stimulates normal cellular turnover, protecting the skin from oxidizing agents.

VITAMIN E / TOCOPHEROL

It carries out an important antioxidant action capable of blocking the harmful effect that free radicals exert on the cells. It protects the structure of collagen and preserves skin elasticity, thus counteracting premature aging due to the oxidative stress of sunlight, pollution and smoke. In this way the skin remains toned and elastic, avoiding the appearance of wrinkles, the emptying of tissues and the loss of definition of the lip contour.

POLIDECENE HYDROGENATED

Ingredient with high eudermic properties, even in cases of dermatological changes. It carries out an important moisturizing action reducing the peeling. Not occlusive, it makes the skin smooth and compact.

DIRECTIONS FOR USE: Apply to the lips until completely absorbed, even several times a day. Recommended in the morning as a base for lipstick and in the evening as an anti-age. For enhanced results, apply the product after using the Lips Scrub from SkinSystem dermocosmetic line.
