BREAST CREAM Algae, Horehound, Tripeptide 5

Format 250 ml
Cod. 1010020034

Very delicate emulsion based on highly concentrated herbal extracts. Particularly indicated in the firming and elasticizing treatment of the breast. It reduces the depth of stretch marks, stimulating the production of fibroblasts, essential for the synthesis of collagen, backbone of the dermis.

HOREHOUND
The Marrubium Vulgare produces a strong stimulating and toning action on muscles and tissues.

ALGA PULLULAN
The extract of the microalgae Nannochloropsis Oculata, rich in vitamin C and B12 and nutrients (amino acids, proteins and omega 3), produces an immediate lifting effect of tissues. It protects cells, strengthening skin and the connective tissue with antioxidant action. It carries out a stimulating action on fibroblasts in collagen production, reduces the depth of stretch marks, increasing tone, firmness and elasticity.

TRIPEPTIDE-5
Antioxidant and plumping. Peptide that manages to penetrate to the deepest layers of the dermis, with proven anti-aging effectiveness. Once it has reached its position, it sends a message to the cells to produce new collagen, in this way maintaining the skin firm and young.

DIRECTIONS FOR USE:
Apply on breast and decolleté with the most appropriate massage technique.
