Mud Scrub

New Formula

DRAINING AND TONING MARINE CRYSTALS
Sea Salt, Green Tea, Rosemary, Daucus Carota Sativa, Hypericum, Jojoba Oil

Format 500 ml
Cod. 1010020189

Enhanced Multifunctional Scrub-Gel specific for the prevention and treatment of skin blemishes, water retention and skin laxity. Deeply removes dead cells, promoting tissue regeneration. Stimulates blood microcirculation, avoiding the typical stagnation effect due to incorrect ascent of fluids or sedentary lifestyle, thus reducing swelling and heaviness of the lower limbs. The synergistic action of the active ingredients, elasticises and tones the tissues, slowing down skin aging.

PARABENS, PARAFFINUM, PETROLATUM, SILICONES, SLS, SLES, ANIMAL DERIVED.

SEA SALT
Sea salt has draining and remodelling properties since, penetrating through the skin by osmosis, it frees the tissues from excess liquids and reactivates the fat disposal mechanisms.

ROSEMARY
Rosemary improves blood circulation, fighting water retention and swelling of the belly, thighs and abdomen. As a natural tonic, it carries out an important recompacting and elasticising action on the tissues, preventing their laxity.

GREEN TEA
Rich in polyphenols, vitamins, mineral salts, enzymes and caffeine, it has a strong antioxidant and protective activity. Delays the appearance of signs of skin aging, such as sagging tissue, sun damage and age spots. Improves complexion making skin hydrated, healthy and glowing. Rich in tannins, it has important purifying and sanitizing properties.

DAUCUS CAROTA SATIVA
The extract of Daucus Carota Sativa, particularly rich in minerals, vitamins A C B1 B2 and carotene, is an excellent nourishment for the skin. It helps the lymphatic system to drain away toxins and excess liquids, stimulates the microcirculation and the consequent tissue oxygenation, giving the skin hydration, elasticity and tone.

HYPERICUM
Rich in beta-carotene and flavonoids, the hypericum extract has soothing, emollient and regenerating properties. It is also recognized for its toning properties and its eudermic action on aging skin.

JOJOBA OIL
Jojoba oil has emollient, hydrating and protective properties for the skin's pH. Particularly similar to the composition of the skin, rich in vitamins, minerals, iodine, tocopherol and other natural antioxidant substances, it prevents dehydration by reducing the loss of water from the cells. Strengthens the hydrolipidic film, protects, revitalizes and elasticises the skin, preventing normal aging and giving it smoothness, tone and brightness. Particularly indicated in the case of dry, withered and aging skin, it restores tone and elasticity to the tissues with visible results from the very first applications.

DIRECTIONS FOR USE: Mix the product before use. Take the required amount of product with a wooden spatula. Massage vigorously and with circular movements, focusing on the areas particularly affected by the blemish. Rinse with water. It is possible to use the product as a functional treatment and in this case, once applied, cover with cartene and a heating blanket and leave on for 30 minutes. For external use only. Keep in a cold and dry place.
