ACTIVE INGREDIENTS

ORGANIC SILICON *(Methylsilanol Mannuronate)*: One of the main ingredients is seaweed, a vital source of energy for the cells to function properly. Provides luminosity and evens the skin tone for a healthy appearance.

EPITENSIVE™ (PLANT-EGF): Plant-derived growth factor that stimulates the synthesis of collagen, elastin and other proteins, as well as extracellular regeneration. Also accelerates re-epithelialisation and skin repair processes.

HYDROLYSED COLLAGEN *(Soluble Collagen):* Bio-Marine Collagen 6 is a high-purity soluble collagen of marine origin. The main component of the dermis, this fibrous protein acts as a support for the outermost skin layers, providing resilience and suppleness.

ALLANTOIN: Moisturising substance that increases hydration in the superficial skin layers, providing a lightening and glass skin effecte.

HYALURONIC ACID *(Sodium Hyaluronate)*: Hygroscopic active ingredient that preserves skin elasticity and firmness. Its moisturising and water-retention properties provide density, deep hydration and a plumping effect while preventing epidermal dehydration.

VITAMIN E *(Tocopheryl Acetate)*: Highly antioxidant vitamin that helps to combat the action of free radicals, the main cause of cellular ageing.
